## Supplies:

DMC 648    DMC 743  
DMC 907    DMC 3799  
DMC 964    DMC 554  
DMC 956    DMC 722

14" x 14" piece of fabric

14" x 14" piece of batting or light interfacing.

## To start:

Print off pattern. Tape pattern onto a window. Then tape your piece of fabric over the piece of paper, placing design in the center. Trace the image onto your fabric with a fabric marking pen or pencil. Do not use the type of pen that erases after a few hours, otherwise you will be retracing your image if you don't get it stitched within a few hours. I like to back my fabric with batting, or interfacing. This is a personal preference.
